ERIC is a nationwide information network consisting of a central staff at the Office of Education and 20 clearinghouses, each of which focuses on a specific field of education. The clearinghouses acquire, review, abstract, and index the documents announced in *Research in Education* and disseminated through the ERIC Document Reproduction Service. The clearinghouses also prepare bibliographies and interpretive summaries of research. Like other documents, these products are announced in *Research in Education* and disseminated through the ERIC Document Reproduction Service. The clearinghouses cannot provide detailed replies to inquiries for information on specific topics. Instead, educators are urged to acquire *Research in Education* and the other ERIC bulletins listed on the ERIC products page and use these resources to search for desired information.
